COVID-19 Coronavirus

The Bureau of Prisons (BOP) is carefully monitoring the spread of the COVID-19 virus. As with any type of emergency situation, we carefully assess how to best ensure the safety of staff, inmates and the public.

[BOP COVID-19 Modified Operations Plan](#)

BOP's Emergency Response

Every institution is like a small city and to cope with major emergencies or other significant interruptions of normal operations, they each have continuity of operations (COOP) plans that provide guidance to staff.

[Learn More](#)

BOP's COVID-19 Response

The BOP's COVID planning is structured using the Incident Command System (ICS) framework and guidance and directives from the Centers for Disease Control (CDC), DOJ and federal partners, as well as the agency's Pandemic Influenza Plan.

Modified Operational Levels

Institution operational levels (Level 1, Level 2, or Level 3) are based on the facilities' COVID-19 medical isolation rate, combined percentage of staff and inmate completed vaccinations series, and their respective county transmission rates. At each level, an infection prevention procedure or modification to operations such as inmate programming and services may be made to mitigate the risk and spread of COVID-19 in accordance with BOP pandemic guidance. BOP pandemic guidance follows and integrates guidance and direction from CDC, OSHA, DOJ, and established medical best practices.

COVID-19 Vaccine Implementation

The Bureau of Prisons (BOP) is working with the Centers for Disease Control and Prevention (CDC) and the Federal Government's COVID-19 Vaccine/Therapeutics Operation (formerly known as Operation Warp Speed), to ensure the BOP remains prepared to receive the COVID-19 vaccine as it becomes available. The BOP has received 258,708 doses and administered 239,924 doses of the COVID-19 vaccine.

COVID-19 Home Confinement Information

Given the surge in positive cases at select sites and in response to the Attorney General Barr's directives, the BOP began immediately reviewing all inmates who have COVID-19 risk factors, as described by the CDC, to determine which inmates are suitable for home confinement. Since the release of the [Attorney General's original memo](#) to the Bureau of Prisons on March 26, 2020 instructing us to prioritize home confinement as an appropriate response to the COVID-19 pandemic, the BOP has significantly increased its placement of offenders on home confinement. Currently, the BOP has --- inmates on home confinement. The total number of inmates placed in home confinement from March 26, 2020 to the present (including inmates who have completed service of their sentence) is ---.
